Product: Speedy Pointing Accelerant

Uses: Construction Materials

UN No.:	N/R
Dangerous Goods Class:	N/R
Subsidiary Risk:	None
Packing Group:	N/R
Hazchem Code:	N/R
Poisons Schedule:	N/R

Hazardous Nature:	This product is not hazardous according to New Zealand Safety and Compensation Council criteria.
Exposure Standards:	TWA: No data available for this type of product; STEL: No data available for this type of product; Peak Limitation (if any): No data available for this type of product; Skin Sensitiser (if any): No data available for this type of product. Refer to Section 8 for further information and definitions.

Physical Characteristics (Typical)		Section 9 of the MSDS
Appearance	Clear	
Boiling Point/Range (°C):	100°C	
Flash Point (°C):	Not applicable	
Specific Gravity/Density (g/ml @ 15°C):	2.15	
Chemical Stability:	This product is stable at room temperature and pressure.	
Reactivity:	None known	

Product Ingredients			Section 3 of the MSDS
Ingredient	CAS Number	Proportion	
Water	7732-18-5	> 95	
Calcium Chloride	10043-52-41	< 5

Risk Phrases	Section 2 of the MSDS
Not hazardous: intentionally left blank.	

DEFINITIONS	
Dangerous Goods	Products that are regulated for transport by Road and Rail under the national guide are Dangerous Goods. Products can be classed as Dangerous Goods if they have a flash point below 60.5°C, a pH below 3 or above 11, are explosives or toxic. These goods will be allocated a UN No., Packing Group, Hazchem Code, and possibly a subsidiary risk.
Hazardous Substances	Hazardous Substances are those products that are intrinsically hazardous by nature, rather than by misuse. These include mutagens, teratogens, carcinogens, products that are toxic (but not sufficiently toxic to be classed as Dangerous Goods or carry a subsidiary risk), and products that pose environmental risks.
Poisons	Poisons are products that are regulated by the dose or exposure, often having physical and chemical effects at certain concentrations particular to the nature of the product. For example, in small doses, some products are harmless, but with increased concentration or exposure these products can be extremely harmful. The classification indicates First Aid, etc.

1. IDENTIFICATION

Product Name:	Speedy Pointing Accelerant
Chemical Family:	Aqueous solution
Molecular Formula:	Not Applicable
Recommended Use:	Construction materials
Supplier:	Shieldcoat NZ Ltd
NZBN:	9429049933208
Address:	7 Woodson Pl, Wairau Valley, Auckland, New Zealand
Telephone:	0800 123 900
Emergency Phone:	0800 764 766
All other inquiries:	0800 123 900

3. COMPOSITION: Information on Ingredients

Chemical Ingredient	CAS Number	Proportion (% v/v)
Water	7732-18-5	> 95
Calcium Chloride	10043-52-41	< 5

4. FIRST AID MEASURES

Ingestion

If swallowed, DO NOT induce vomiting. Keep at rest. Seek immediate medical attention.

Eye Contact

Flush eyes with large amounts of water until irritation subsides. Seek immediate medical attention.

Emergency Number: 0800 764 766

Skin Contact

Flush area with large amounts of water and wash area with soap if available. Remove contaminated clothing, including shoes, and launder before reuse. Seek medical attention for skin irritations.

Inhalation

Using proper respiratory protection, immediately remove the affected victim from exposure. Administer artificial respiration if breathing has stopped. Keep at rest. Seek immediate medical attention.

First Aid Facilities

Provide eye baths and safety showers.

Medical Attention

Treat according to symptoms.

5. FIRE FIGHTING MEASURES

Shut off product that may 'fuel' a fire if safe to do so. Allow trained personnel to attend a fire in progress providing fire fighters with this Material Safety Data Sheet. Prevent extinguishing media from escaping to drains and waterways.

Suitable Extinguishing Media

Product will not burn.

Hazards from combustion products

None: product will not burn.

Precautions for fire fighters and special protective equipment

None: product will not burn.

Hazchem Code

N/R

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures

Prevent product from escaping to drains and waterways. Contain leaking packaging in a containment drum.

Prevent vapours or dusts from building up in confined areas. Ensure that drain valves are closed at all times.

Clean up and report spills immediately.

Methods and materials for containment

Major Land Spill

- Eliminate sources of ignition.
- Warn occupants of downwind areas of possible fire and explosion hazard, wherepresent.
- Prevent product from entering sewers, watercourses, or low-lying areas.
- Keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Advise authorities if substance has entered a watercourse or sewer or has contaminated soil or vegetation.
- Take measures to minimise the effect on the ground water.
- Contain the spilled product using the resources in the spill kit.
- Recover by pumping – use explosion proof pump or hand pump – or with a suitable absorbentmaterial.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See “First Aid Measures” and “Stability and Reactivity”

Major Water Spill

- Eliminate any sources of ignition.
- Warn occupants and shipping in downwind areas of possible fire and explosion hazard, wherepresent.
- Notify the port or relevant authority and keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Confine the spill if possible.
- Remove the product from the surface by skimming or with suitable absorbent material.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See “First Aid Measures” and “Stability and Reactivity”.

7. HANDLING AND STORAGE

Precautions for Safe Handling

There are no specific safety requirements for handling this product. Standard industrial hygiene and safety practice is recommended when using this product.

Conditions for Safe Storage

There are no specific safety requirements for storing this product. Consider checking containers for leaks periodically and protect the packaging from physical damage (store out of direct sunlight, away from high traffic areas, etc.).

Incompatible Materials

None known

8. EXPOSURE CONTROLS: PERSONAL PROTECTION

National Exposure Standards

The time weighted average concentration (TWA) for this product is: No data available for this type of product, which means the highest allowable exposure concentration in an eight-hour day for a five-day working week. The short term exposure limit (STEL) is: No data available for this type of product, which is the maximum allowable exposure concentration at any time. Replacing a TWA or STEL value for some products is a Peak Limitation value (Peak): None applies in this case. In addition to the exposure concentrations may be a subsidiary caution in such cases where the product is a skin sensitiser, represented as (Sk), where none applies in this case.

Biological Limit Values (BLV)

No data available for this type of product

Engineering Controls: Ventilation

The use of local exhaust ventilation is recommended to control process emissions near the source. Laboratory samples should be handled in a fume hood. Provide mechanical ventilation of confined spaces. Use explosion proof equipment.

Personal Protective Equipment

Respiratory Protection: Where concentrations in air may approach or exceed the limits described in the National Exposure Standards, it is recommended to use a half-face filter mask to protect from overexposure by inhalation. A type 'A' filter material is considered suitable for this product.

Eye Protection:

Always use safety glasses or a face shield when handling this product.

Skin/Body Protection:

Always wear long sleeves, long trousers, or coveralls, and enclosed footwear or safety boots when handling this product. It is recommended that chemical resistant gloves be worn when handling this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Unit of measurement	Typical Value
Appearance	None	Clear
Boiling Point/Range	°C	100
Flash Point	°C	Not applicable
SG/Density (@ 15°C)	g/ml; kgm-3	1.05-1.101
Vapour Pressure @ 20°C	kPa	No data available
Vapour Density @ 20°C	g/ml; kgm-3	No data available
Autoignition Temperature	°C	Not applicable
Explosive Limits in Air	% vol/vol	Not applicable
Viscosity @ 20°C	cPs, mPas	Not applicable
Percent volatiles	% vol/vol	Not applicable
Acidity/alkalinity as pH	None	6.0 - 8.01
Solubility in Water	g/l	Fully soluble
Other solvents	-	None

The values listed are indicative of this product's physical and chemical properties. For a full product specification, please consult the Technical Data Sheet.

10. STABILITY AND REACTIVITY

Chemical stability

This product is stable at room temperature and pressure.

Conditions to avoid

None known

Hazardous decomposition products

None known

Hazardous reactions

None known

Hazardous polymerisation

Will not occur

11. TOXICOLOGICAL INFORMATION

Acute Effects

Ingestion

Ingestion will result in discomfort on swallowing. No narcotic effects are expected.

Eye Contact

Particulate matter in the eyes will result in temporary discomfort. Temporary corneal damage may occur due to abrasion irritation.

Skin Contact

Temporary abrasion irritations (due to particulates) may occur and can be avoided with the use of appropriate skin protection.

Inhalation

Inhalation of this product is unlikely and no vapours are present in the formula.

Chronic Effects

None known

Other Health Effects Information

None known

Toxicological Information

Oral LD50: No data available

Dermal LD50: No data available

12. ECOLOGICAL INFORMATION

Ecotoxicity

Aquatic Toxicity:

Fish Toxicity LC50:

No data available

Daphnia Magna EC50: Blue-green algae: Green algae:	No data available No data available No data available
Persistence/Biodegradability: This product is expected to persist. Mobility: This product is unlikely to be very mobile.	

13. DISPOSAL CONSIDERATIONS

Disposal Methods

Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national and local authorities. Packaging may still contain product residue that may be harmful. Ensure that empty packaging is managed in accordance with Dangerous Goods regulations.

14. TRANSPORT INFORMATION

Road and Rail Transport		Marine Transport		Air Transport	
UN No.	N/R	UN No.	N/R	UN No.	N/R
Proper Shipping Name	Pointing Accelerant	Proper Shipping Name	Pointing Accelerant	Proper Shipping Name	Pointing Accelerant
DG Class	N/R	DG Class	N/R	DG Class	N/R
